

## DIRECTIONS TO PINDARA LUNG FUNCTION LAB

### Via carpark:

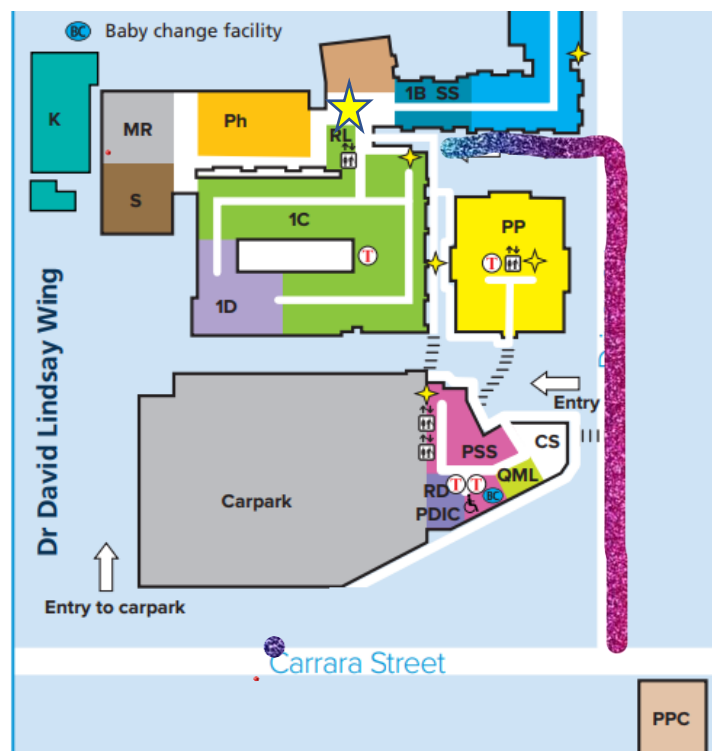

Access the carpark hospital via Carrara St -> take carpark lift to level 2 -> Turn left out of lift and walk across the link-bridge into the hospital -> Ask reception where lung lab is (down to level 1 via lifts behind reception and lab is on the left).

### Mobility issues / drop off outside of lab:

1) Access 'unofficial' drop off area which is right outside the lab via the Goodstart early learning driveway (Pictured below).

2) Drive until you reach a boom gate and turn left directly before it! (glitter line is where to go. We are RL on map)

3) This is what the drop off area looks like and the star is where the entrance to the back of the hospital is (via a ramp). The lung lab is just through the doors and to the right (second picture).

When you enter the doors, we are HERE! (Where the star is). You can also see the lift where people come out of from the normal way of getting in
